## Spa Etiquette

Prepare yourself for the ultimate Spa experience with our treatments and services. Relax while our experts take care of you. Here are some suggestions to consider when enjoying a Spa service:

### **Get to know us**

If you are not familiar with Spa treatments, please check our [Beauty and Spa Services](#) and [Price list](#) information attached. There you will find a brief technical description of the services we offer.

Our Spas: Renova Spa is located in more than 35 hotels in 6 countries. To locate each of our spas please visit our Web page [www.renovaspa.com](http://www.renovaspa.com). There you will find information about the spas' facilities.

### **Booking your appointment**

***Upon arrival to the hotel:*** We suggest you book your appointment as far in advance as possible. During the day we have peak times, if the appointment you want falls within these hours, you may find it difficult to reserve. Take advantage of the special promotions available during off-peak hours. Book your appointment through the hotel operator or by calling the Spa directly.

***Online, before arrival to the hotel:*** Our online customer service agent at [info@renovaspa.com](mailto:info@renovaspa.com) will help you to arrange your spa appointments before you travel. Reserve online and obtain a 5% discount off all services.

***Medical conditions:*** If you have any type of medical condition make sure to mention it when making your appointment.

***Age restrictions:*** The minimum age required to access the Spa facilities (sauna, Jacuzzi and gym) is 18 years. Children under 18 years may enter only when receiving a Spa or beauty treatment.

***Choose your therapist:*** Feeling comfortable is a very important part of your Spa service. Male or female therapists are available for different treatments. Unless you state a preference when making your reservation you will be assigned the next available qualified therapist. Therapist selection restrictions may apply.

### **Experience the service**

***Punctuality:*** To receive the ultimate benefits of your treatment and enjoy the humid facilities, try to arrive 30 minutes before your appointment time. That will give you plenty of time to check in, change and talk with your therapist. Since therapies and treatments are tightly scheduled, arriving late may reduce the amount of time available for your service.

***Dress:*** We suggest you wear casual and comfortable clothes that you can slip in and out of easily. Upon arrival you will change into a spa robe and slippers that will be provided to you. Undergarments are not necessary but can be worn if you prefer. Disrobe to the level of your comfort. Our therapists are trained to drape a sheet or towel over your body in a discrete manner so that you are covered to a level of your comfort. If at any time you are uncomfortable, please inform your therapist.

***Jewelry and Valuables:*** Jewelry can interfere with the therapy procedure. Please leave any jewelry and valuables (money, electronic devices etc.) in your room safe.

Beauty, Health & Spirit.

**Food and Beverages:** It is best not to receive bodywork on a full stomach, allow at least one hour before your treatment after eating or drinking. Consume plenty water, before and after your session, this will hydrate and stimulate your body to purge toxins.

**Spa environment:** To preserve the quiet Spa atmosphere, please refrain from bringing in any alcoholic beverages or smoking while in the Spa. Try to speak in a low voice and help us keep the facilities clean and safe by using a towel when enjoying the wet areas (Jacuzzi, sauna).

**Payment procedure:** Payment for Spa services is at check-in, before you enter the cabin. This gets the business part out of the way and will allow you to enjoy our all-inclusive service without delay as soon as you finish your treatment. Beauty services can be paid at the end. We accept cash, Visa or MasterCard. Prices are subject to change without notice.

Ask to our Spa receptionist or online customer service should you have further questions or doubts and they will help you to select the best treatment for your needs.
